Salary *and* Tax

TAKE-HOME PAY STATEMENT

SCENARIO A

Tax year **2026**
Amounts **per year**

Prepared for an employee earning **$75,000** *a year in* **Alberta**.

INCOME

Gross pay — **$75,000**
Your salary before any deductions — $75,000 a year, the number on your offer letter.

PAYROLL PROGRAMS — taken before income tax

CPP — Canada Pension Plan — - $4,230
5.95% of earnings between $3,500 and $74,600. Its enhanced slice is deductible, which lowers your taxable income below.

CPP2 — second-tier pension — - $16
4% of earnings between $74,600 and $85,000. Fully deductible.

EI — Employment Insurance — - $1,123
1.63% of earnings up to $68,900. Funds job-loss, parental and sickness benefits.

INCOME TAX

Taxable income — $74,273
Gross minus the deductible part of CPP. Income tax is worked out on this, not on your gross.

Federal income tax — - $8,259
Charged in layers from 14% up to the 20.5% band your income reaches, less credits for the basic personal amount, CPP, EI and the Canada employment amount.

Alberta income tax — - $4,010
Alberta brackets from 8%, less credits for the basic personal amount, CPP and EI.

TOTAL

Total deductions — **- $17,639**
Everything taken off the top: income tax, CPP and EI.

NET TAKE-HOME PAY

$57,362

per year · 76.5% of your gross stays with you

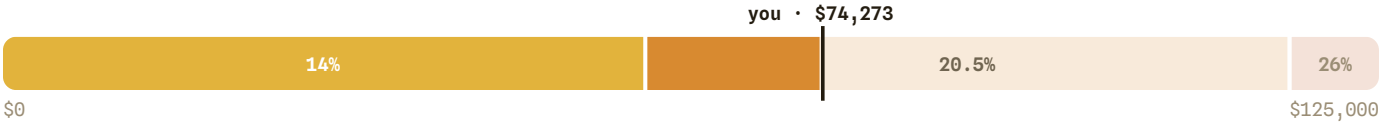

KEEPS 76%

FIGURE 1

How your income tax was built

FEDERAL BRACKETS

$8,259 federal tax per year

ALBERTA BRACKETS

$4,010 provincial tax per year

Each band taxes only the income that falls inside it. The marker is where your taxable income reaches — everything to its left was taxed at the lower bands first, which is why your effective rate is well below your top bracket. Bars show tax before credits.

SCHEDULE A

What lands each payday

PAY FREQUENCY	GROSS	DEDUCTIONS	TAKE-HOME
Weekly	$1,442.31	$339.20	**$1,103.11**
Bi-weekly	$2,884.62	$678.40	**$2,206.21**
Semi-monthly	$3,125.00	$734.94	**$2,390.06**
Monthly	$6,250.00	$1,469.88	**$4,780.13**
Yearly	$75,000.00	$17,638.50	**$57,361.50**

EFFECTIVE TAX RATE

16.4%

The share of your whole income that goes to income tax — your true average.

TRUE MARGINAL RATE

33.3%

What your next $100 loses to tax, CPP and EI. On your next $1,000 raise you'd keep about $667 — a raise never lowers your take-home.

Employment income only, single filer resident in Alberta on Dec 31, 2026. Basic credits only (no RRSP, dependant or tuition). Validated against TaxTips.ca and Wealthsimple, October 2026. An estimate, not tax advice.
