# Salary *and* Tax

TAKE-HOME PAY STATEMENT

Tax year **2026**
Amounts **per year**

*Prepared for an employee earning* **$105,000** *a year in* **British Columbia**.

## INCOME

**Gross pay** — **$105,000**
Your salary before any deductions — $105,000 a year, the number on your offer letter.

## PAYROLL PROGRAMS — taken before income tax

**CPP — Canada Pension Plan** — - $4,230
5.95% of earnings between $3,500 and $74,600. Its enhanced slice is deductible, which lowers your taxable income below.

**CPP2 — second-tier pension** — - $416
4% of earnings between $74,600 and $85,000. Fully deductible.

**EI — Employment Insurance** — - $1,123
1.63% of earnings up to $68,900. Funds job-loss, parental and sickness benefits.

## INCOME TAX

**Taxable income** — $103,873
Gross minus the deductible part of CPP. Income tax is worked out on this, not on your gross.

**Federal income tax** — - $14,327
Charged in layers from 14% up to the 20.5% band your income reaches, less credits for the basic personal amount, CPP, EI and the Canada employment amount.

**British Columbia income tax** — - $6,029
British Columbia brackets from 5.6%, less credits for the basic personal amount, CPP and EI.

## TOTAL

**Total deductions** — **- $26,125**
Everything taken off the top: income tax, CPP and EI.

NET TAKE-HOME PAY

# $78,875

per year · 75.1% of your gross stays with you

KEEPS 75%

FIGURE 1

## How your income tax was built

FEDERAL BRACKETS

**$14,327 federal tax per year**

**you · $103,873**

$0 $125,000

BRITISH COLUMBIA BRACKETS

**$6,029 provincial tax per year**

**you · $103,873**

$0 $125,000

Each band taxes only the income that falls inside it. The marker is where your taxable income reaches — everything to its left was taxed at the lower bands first, which is why your effective rate is well below your top bracket. Bars show tax before credits.

SCHEDULE A

## What lands each payday

| PAY FREQUENCY | GROSS | DEDUCTIONS | TAKE-HOME |
|---|---|---|---|
| Weekly | $2,019.23 | $502.40 | **$1,516.83** |
| Bi-weekly | $4,038.46 | $1,004.80 | **$3,033.67** |
| Semi-monthly | $4,375.00 | $1,088.53 | **$3,286.47** |
| Monthly | $8,750.00 | $2,177.06 | **$6,572.94** |
| **Yearly** | $105,000.00 | $26,124.70 | **$78,875.30** |

EFFECTIVE TAX RATE

**19.4%**

The share of your whole income that goes to income tax — your true average.

TRUE MARGINAL RATE

**31.0%**

What your next $100 loses to tax, CPP and EI. On your next $1,000 raise you'd keep about $690 — a raise never lowers your take-home.

Employment income only, single filer resident in British Columbia on Dec 31, 2026. Basic credits only (no RRSP, dependant or tuition). Validated against TaxTips.ca and Wealthsimple, October 2026. An estimate, not tax advice.
